

The Role of Energy and Food Demand in Climate Change Mitigation

CIVICA Research Project STEADFAST - Sustainable Energy and Food Transitions
Bocconi University, Central European University, European University Institute
7 March 2023 2:00 - 5:00 PM (CET) ONLINE | [Register here](#)

Agenda

- Introduction (10 minutes)
 - Valentina Bosetti (Bocconi University)
- Session 1 (60 minutes)
 - Presentation of STEADFAST work package on food demand - Silvia Pianta (European University Institute) *Exploring demand-side mitigation: comparing historical dietary changes and climate mitigation scenarios*
 - Presentation by Lukas Fesenfeld (University of Bern /ETH Zurich): *The role of carbon food labels and experience with meat substitutes in shifting food demand toward planetary health diets*
 - Roundtable discussion
- Coffee break (20 minutes)
- Session 2 (90 minutes)
 - Presentation of STEADFAST Work Package on energy demand - Marta Vetier and Aleh Cherp (Central European University)
 - Gregor Semieniuk (University of Massachusetts Amherst): *The demands on energy of industrialization: a production-side perspective on generating affluence in developing countries with climate change mitigation*
 - Benigna Bozza-Kiss (International Institute for Applied Systems Analysis (IIASA): *Energy demand-side solutions in the urban space*
 - Roundtable discussion
